

DEPARTMENT OF PHYSIOLOGY

Name of Investigation	Rate
Blood Glucose-6-Phosphate Dehydrogenase (G6PD)	
Spirometry (Lung Function Test) with reversal	
Autonomic Nerve Function tests: A. Parasympathetic- Heart rate response to valsava Manuover Heart Rate response to Deep Breathing Immediate Heart Rate Response to standing (30:15 th Ratio) B. Bympathetic-Systolic Blood Pressure (SPB) response to Standing Blood Pressure Response to Sustained Hand Grip
