TRAINING BLOCKS/ Rotations

A trainee during his/her tenure need to have a three month attachment in the neonatology ward apart from his training in general Pediatrics

Essential information on using the logbook:

Objectives of the Logbook:

The purpose of the logbook is to provide one source of evidence for BSMMU that you have attained the desired level of competency required to sit for the Diploma in Child Health (DCH) examination. It is the record where you are going to document experiences and skills you attained during your training.

Instruction to the Trainees:

1. The log book (Daily Training Record)is a day to day record of the clinical and academic work done by the resident
2. The log book will be a pre-requisite for appearing in the final examination
3. This log book has to be maintained by all the trainee throughout the period of training
4. The trainee will obtain the log book from the course-coordinator of the parent discipline immediately after joining
5. The resident will make the required entries in the logbook on the same day of the event and get it signed by the supervisor
6. Every leave application when forwarded should be entered in the leave record section of the book
7. It is the responsibility of the resident to keep the logbook safe and secured

Guidelines for the supervisors:

1. The log book is a day to day record of the clinical and academic work done by the trainee.
2. It is the responsibility of the supervisor to identify and inform the trainee of the area in which he is lacking and provide opportunities to improve the competence.
3. Supervisors or his/her designated consultant/trainer should sign the completed events on that particular day in the appropriate column of the logbook

Important notice for the trainee:

- It is your responsibility to maintain accurate and complete logbook and to regularly update your records.
- Shall you meet any difficulty, you must contact your supervisor or course coordinator
- Unsatisfactory completion of the logbook would lead to delay of training progression.
- Unsatisfactory logbook at the end of training will prevent you from entering the final examination.

Level of Competence / Performance:

The Level of Competence / Performance at which a skill is performed by the trainee should be recorded in the given column of the logbook

For Patient Management:

Level 1: Observed/assisted

Level 2: Managed under supervision

Level 3: Managed independently

For Procedures:

Level 1: Observed/ assisted/ interpretation

Level 2: Performed under supervision
